SUMMARY

Seeking an entry-level Frontend Developer position where I can apply my skills in **HTML**, **CSS**, **JavaScript**, and **React** to build responsive and user-friendly web applications.

TECHNICAL SKILLS

- HTML5
 - CSS3
 - BOOTSTRAP [Framework]
 - JAVASCRIPT
 - REACT
-

Project

- **PORTFOLIO Website [React.js]** – Designed and developed a responsive personal portfolio website using **HTML**, **CSS**, **JavaScript** or **React** to showcase projects, skills, and achievements. Implemented modern **UI/UX** principles, interactive animations, and a mobile-friendly layout for an optimal user experience.
 - **E-commerce Web Page [React.js]**- Designed and developed a responsive e-commerce web page with product listing detailed product view , and add-to-cart functionality. Implemented modern UI using **HTML**, **CSS**, **JavaScript** and **React** to ensure an engaging and mobile-friendly user experience.
 - **Food Recipe Searcher** – Developed a **React-based web app** to search recipes by name, ingredients, or category using a third-party API. Implemented **Context API** for global state management and added features like favorites and detailed recipe view. Designed a **responsive UI** with **clean and user-friendly** styling.
-

EDUCATION

Bachelor of commerce | Pune University | 2022-2025 |

CERETIFICATION

- **Web Development Essentials Certification** – Covered fundamentals of **HTML**, **CSS**, **JavaScript**, and **responsive design**.
 - **React.js Development** – Gained hands-on experience with **components**, **props**, **state management**, **hooks**, and **Context API**.
